

HELLENIC AIR FORCE ACADEMY ATHENS – GREECE

INVITATION

Dear Ladies and Gentlemen,

The Hellenic Air Force Academy under the auspices of the European Security and Defence College, in the framework of the European initiative for the exchange of young military officers, inspired by Erasmus, has the honour of organising a Common Module on Space Applications.

The module consists of an **e-Learning part**, as well as a **residential session**, hold at Athens, at the premises of the Hellenic Air Force Academy in Dekeleia Air Force Base, **from the 24th to the 28th of Nov 2025, both parts being compulsory.**

The seminar is based on the Standard Curriculum of EMILYO (European Initiative for the Exchange of Young Officers). It constitutes a key component of the EU's educational activities in the space domain and promotes a better understanding of the role of Space Applications in Security and Defence. The curriculum was proposed by the Hellenic Air Force Academy and approved by the ESDC in 2018. Topics to be addressed include the origins of the space era, which emerged from the lack of intelligence-sharing between superpowers during the Cold War, the basic elements of space systems, the main types of satellites and the strategic, tactical, and political dimensions of space.

We would be pleased if you would accept this invitation and nominate suitable candidates for this training activity.

For further details regarding the course and administrative information please refer to the attachments.

Major General Matthaïos Kanoupakis
Commander of the Hellenic Air Force Academy
